

Project Presentation

AROCED - TRAVEL AGENCY WEBSITE

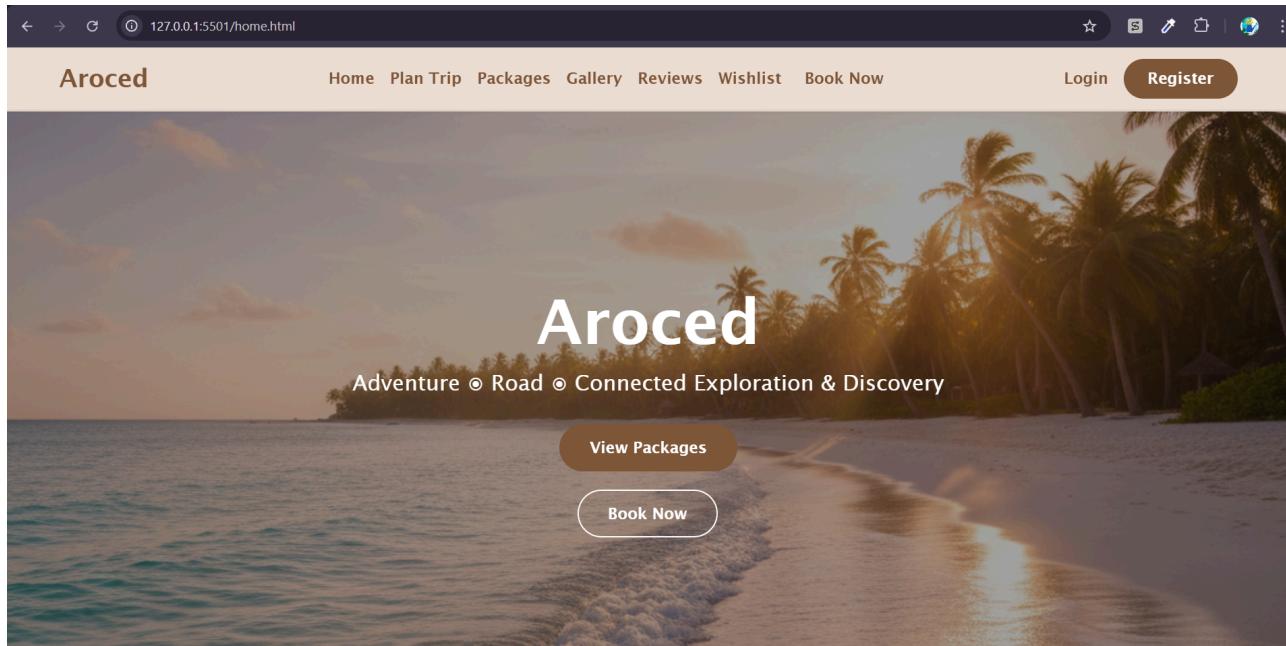

Project Introduction

The travel industry is rapidly evolving with the advancement of digital platforms that make trip planning more convenient and accessible. Aroced Travel Agency Website is a web-based project developed to provide users with an interactive and visually appealing platform to explore travel destinations and plan trips with ease.

This project focuses on designing a responsive and user-friendly website using HTML, CSS, Bootstrap, and JavaScript, ensuring smooth navigation and an engaging user experience across different devices. The website allows users to view destination details, explore travel options, and contact the travel agency conveniently, reducing dependency on traditional offline methods.

By offering attractive visuals, responsive design, and light interactivity, the proposed system provides an efficient online solution that enhances customer engagement and simplifies the travel planning process.

Home Page – Hero Section

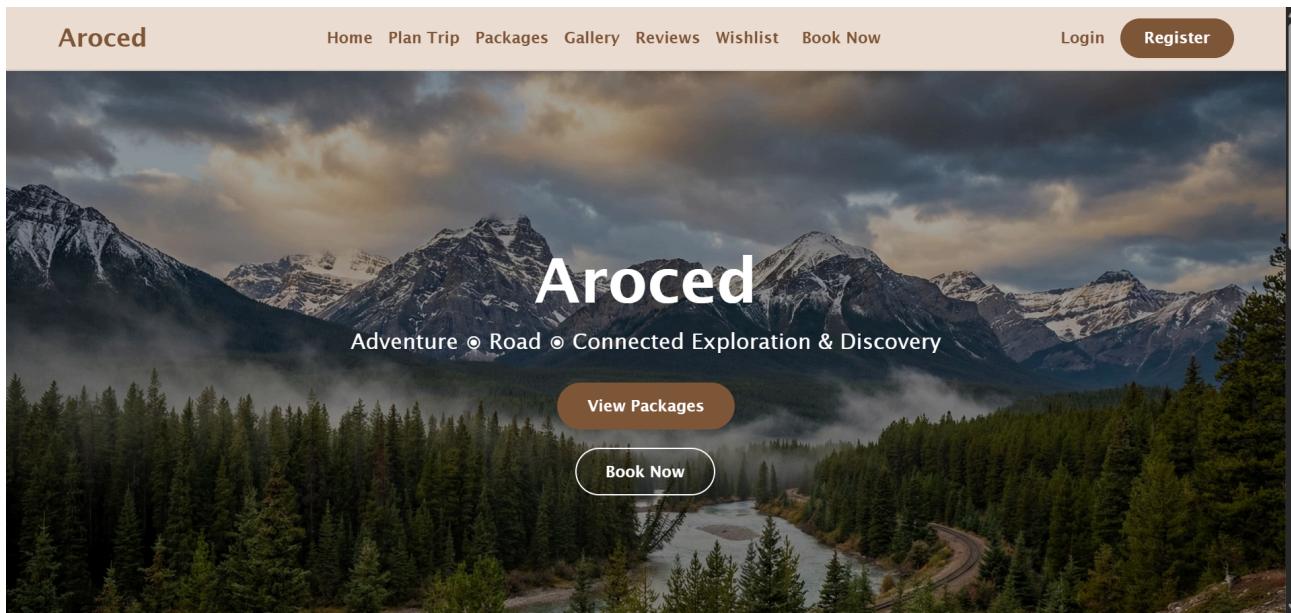

Fig 1 & 2 - Home Page

The Home Page hero section is the first interface users see on the Aroced Travel Agency website. It features an **auto-changing image carousel** that displays travel-related visuals, creating an engaging first impression.

The brand name **Aroced** and a short tagline are prominently displayed, along with a **navigation bar** that provides easy access to all major sections of the website. Call-to-action buttons such as "**View Packages**" and "**Book Now**" help guide users toward exploring packages or booking a trip.

User Authentication Pages

A screenshot of a web browser showing the registration page. The URL in the address bar is 127.0.0.1:5501/register-page.html. The page has a light beige background. At the top, there's a breadcrumb navigation "Home / Register". Below it is a white rectangular form with rounded corners. The title of the form is "Create Account". Inside the form, there are four input fields: the first contains the name "Sejal", the second contains the email "sejal123@gmail.com", and the third and fourth are password fields, each containing five dots (...). At the bottom of the form is a brown "Register" button. Below the button, a small link says "Already have an account? Login".

Fig. 3 Registration Page

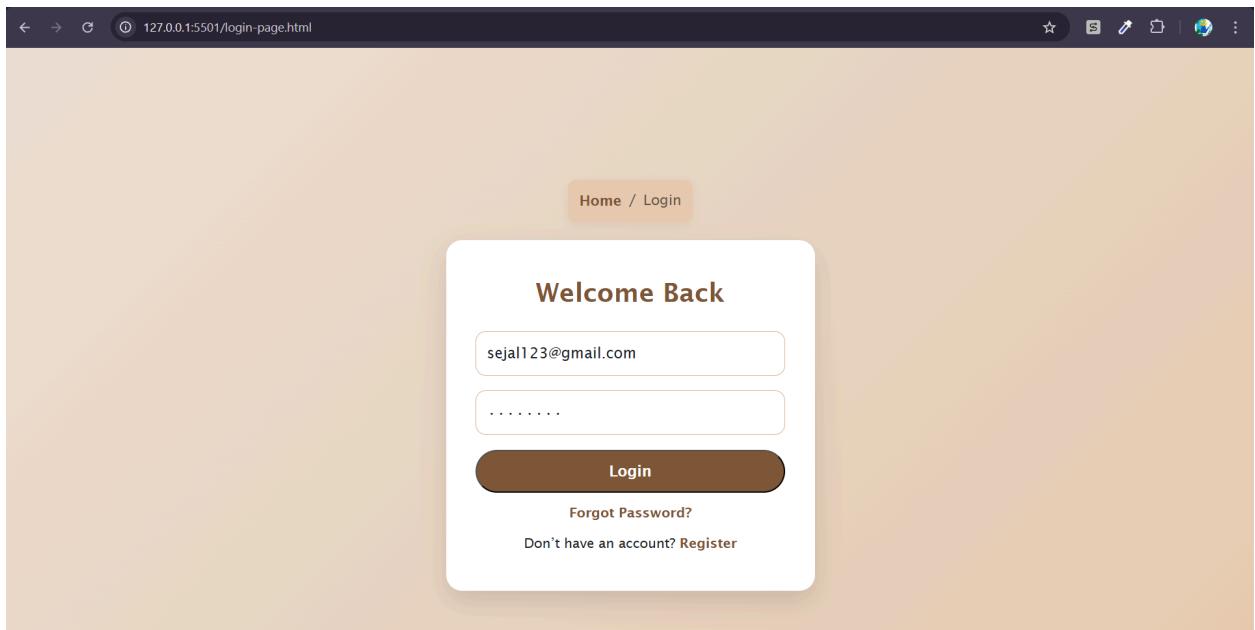

Fig. 4 Login Page

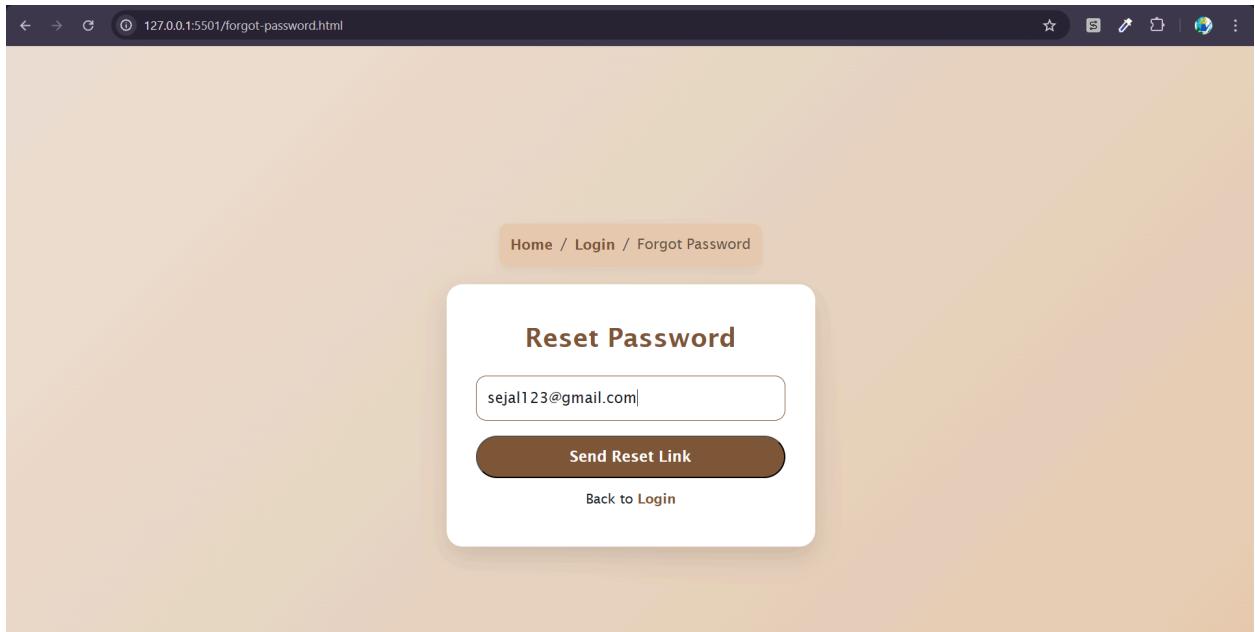

Fig. 5 Forget Password Page

The Aroced Travel Agency website includes **Register**, **Login**, and **Forgot Password** pages designed as part of the frontend interface using HTML, CSS, and JavaScript. These pages offer a simple and clean layout for user interaction.

The Register page allows new users to enter basic details, while the Login page enables existing users to access their accounts. The Forgot Password page helps users reset their password by entering their email address.

All pages include **breadcrumb navigation** (such as Home / Login / Forgot Password), allowing users to easily track their location and navigate back to the Home page, improving overall usability.

Plan Trip Section

The screenshot shows a search interface titled "Plan Your Trip". A search bar contains the placeholder "Where to?". Below it is a dropdown menu listing travel destinations starting with "a": "Goa, India", "Mumbai, Maharashtra, India", "Ahmedabad, Gujarat, India", and "Seoul, South Korea". A "Search Trips" button is located at the bottom right of the search area.

The screenshot shows a more detailed search interface titled "Plan Your Trip". It includes a "Where to?" field with "Rome, Italy" entered, "From" and "To" date fields set to "18-12-2025" and "31-12-2025" respectively, and a "Travellers" section. The "Travellers" section has a "Select travellers" button, an "Adults" count of 1, and a "Children (0-17)" count of 0. A "Done" button is at the bottom right of the travellers section.

The screenshot shows the final search results after entering "Rome, Italy" as the destination, selecting the dates "18-12-2025" and "31-12-2025", and specifying "2 Adults, 1 Children". A "Search Trips" button is visible at the bottom right.

Fig. 6, 7 & 8 Plan Your Trip

The **Plan Trip** section allows users to plan a customized trip by entering basic travel details. The destination field uses an **auto-suggestion feature** where place names are fetched from a **predefined array of locations** and displayed as suggestions as the user types, making destination selection faster and easier.

Users can then select the **travel dates** using date picker inputs and choose the number of **travellers** (adults and children) using increment and decrement controls. After entering all details, users can click the **Search Trips** button to continue, and they will be directed to the Packages section.

Footer Section

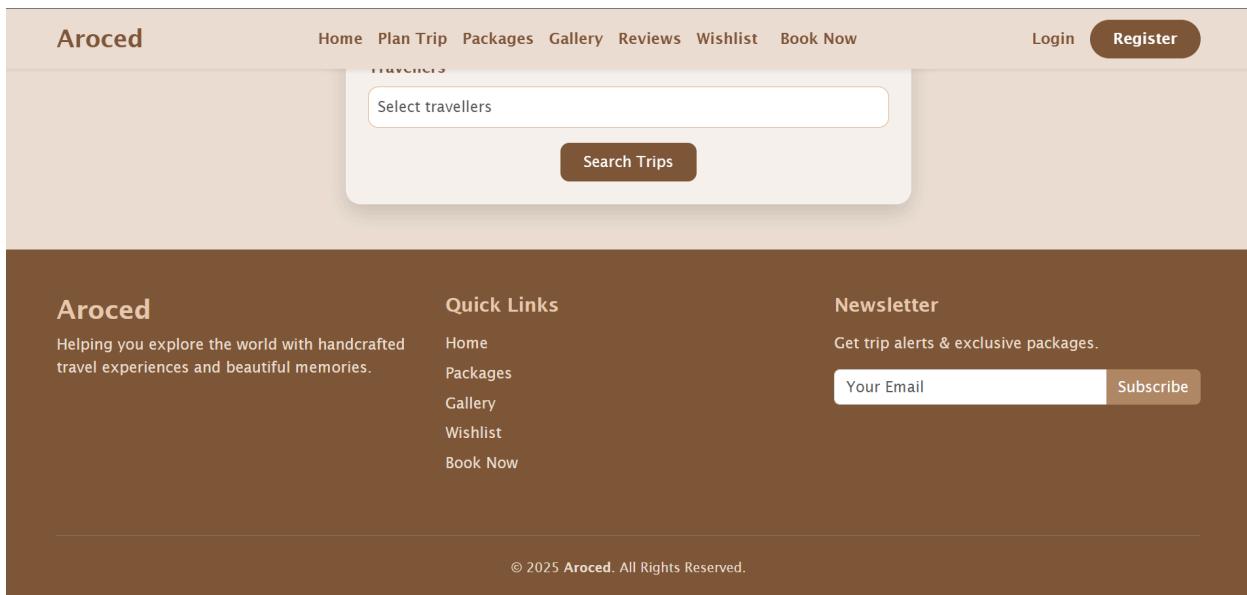

Fig. 9 Footer Section

The footer section provides quick access to important links such as Home, Packages, Gallery, Wishlist, and Book Now. It also includes a brief brand message describing Aroced's travel philosophy and a **newsletter subscription field** where users can enter their email to receive trip alerts and exclusive offers. The footer concludes with copyright information, ensuring a professional and complete website layout.

Message / Special Requests
Here user can add a message or special request, or suggestions too!

Book Now

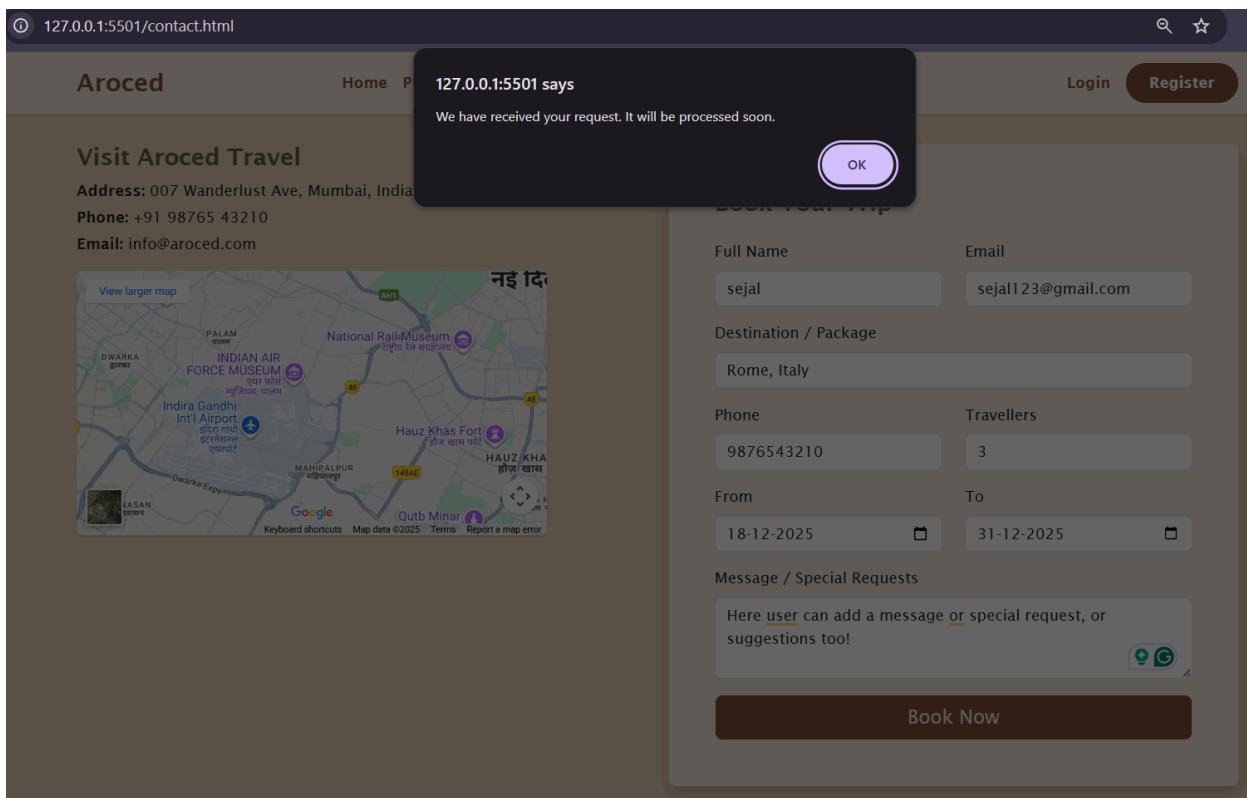

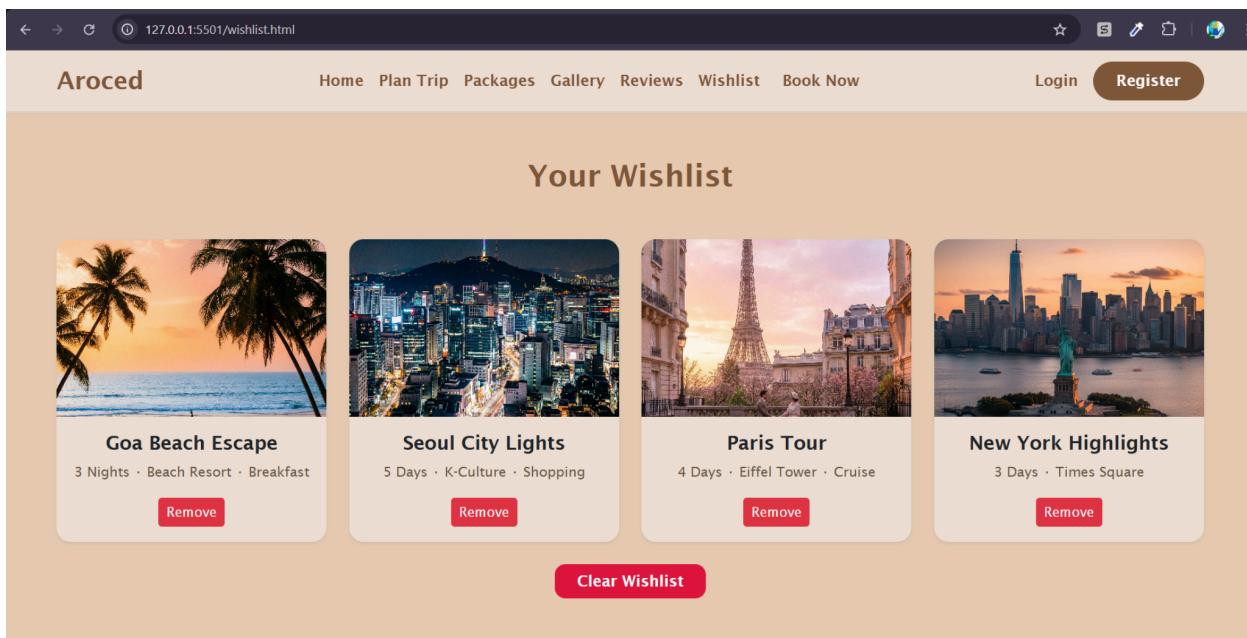

Fig. 14, 15 & 16 Book Now Page

The Book Now section allows users to contact the travel agency and submit a trip booking request. It displays the agency's address, phone number, and email for easy communication. Users can fill in essential details such as destination, travel dates, number of travellers, and special requests. After submission, a confirmation message is shown, ensuring a smooth and user-controlled booking process.

Wishlist Page

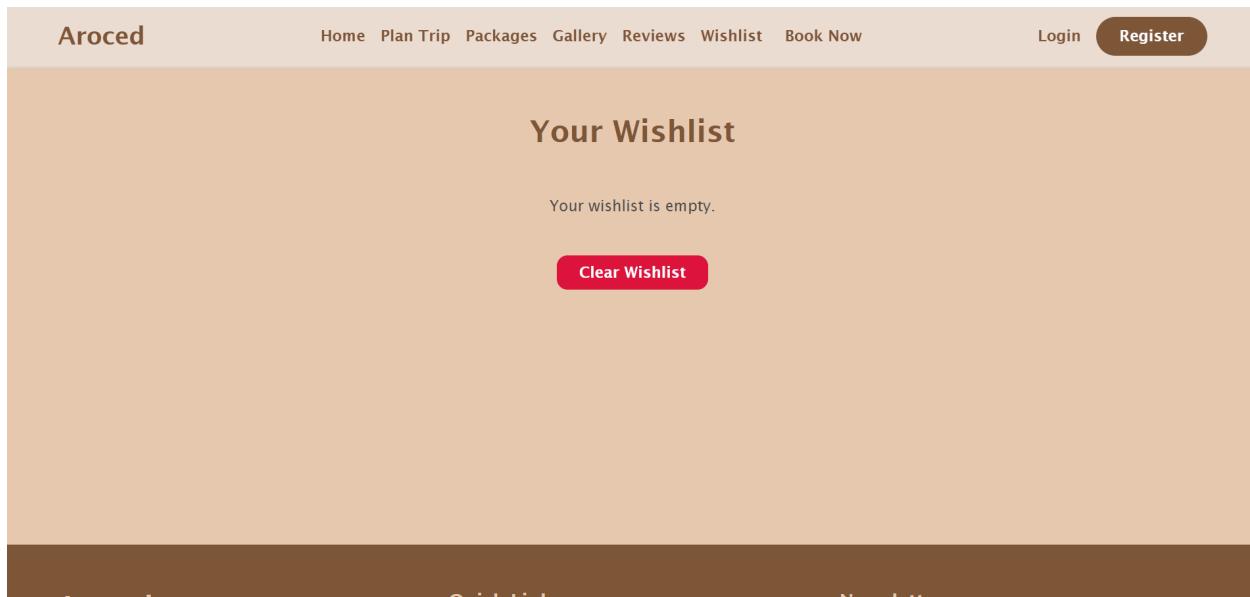

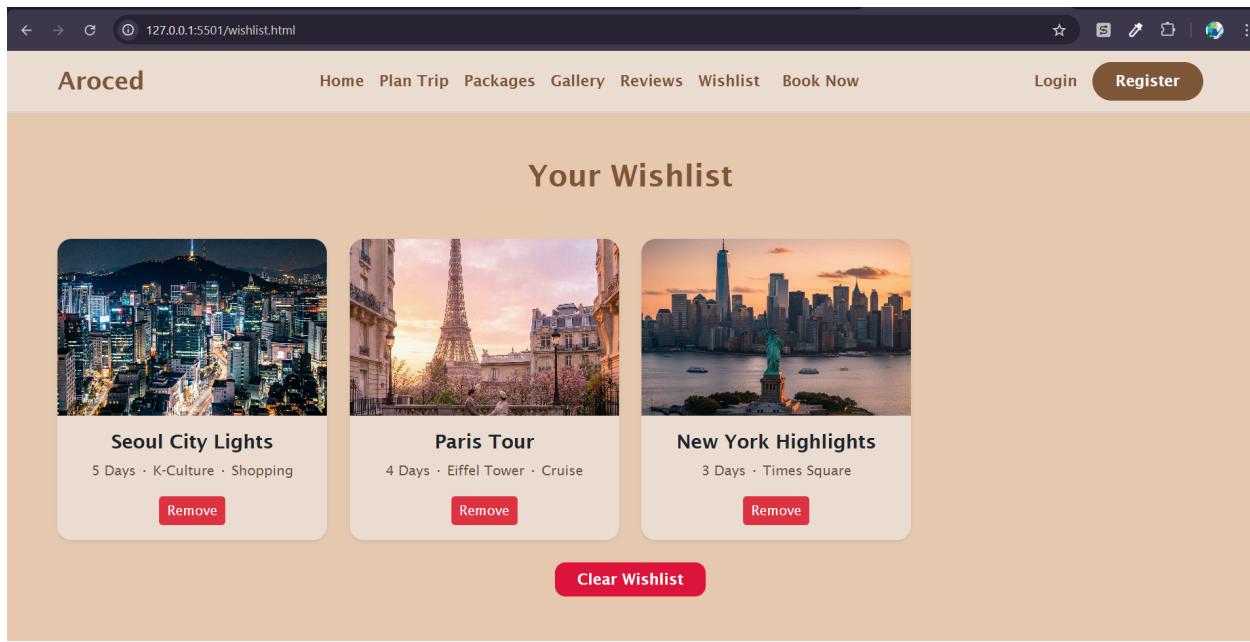

Fig. 17, 18 & 19 Wishlist Page

The **Wishlist Page** allows users to view and manage their **favorite travel packages** saved from the Packages page. Wishlisted items are displayed in a **card format** for easy reference.

Users can **remove individual packages** or use the **Clear Wishlist** option to remove all items at once. If no packages are saved, an **empty wishlist message** is shown. Any changes made are **reflected across the website**.

This feature helps users **save, compare, and plan** their preferred packages before final booking, improving the **overall user experience**.

Travel Gallery Section

Aroced

Home Plan Trip Packages Gallery Reviews Wishlist Book Now Login Register

Travel Gallery

Browse through some of our favourite moments from beaches, cities and nature escapes.

All Beaches Cities Nature

The top row contains four images: a sandy beach with several colorful umbrellas; a city street at night with bright neon signs and people walking; a dense forest with sunlight filtering through the trees; and a coastal road with lights trailing from cars at dusk or dawn. Below this row are two more rows of images, each containing three images. The first image in the second row is mostly black, the second is a beach sunset, and the third is a forest scene. The third row has three images, all of which are mostly black.

Travel Gallery

Browse through some of our favourite moments from beaches, cities and nature escapes.

All Beaches Cities Nature

This version of the travel gallery shows a different set of images. The top row features a beach with umbrellas, a sunset over palm trees on a beach, and another sunset over palm trees on a beach. Below these are two more rows of three images each, all of which appear to be sunsets or sunrise scenes over water or landscapes, with the images in the middle of each row being mostly black.

[All](#) [Beaches](#) [Cities](#) [Nature](#)

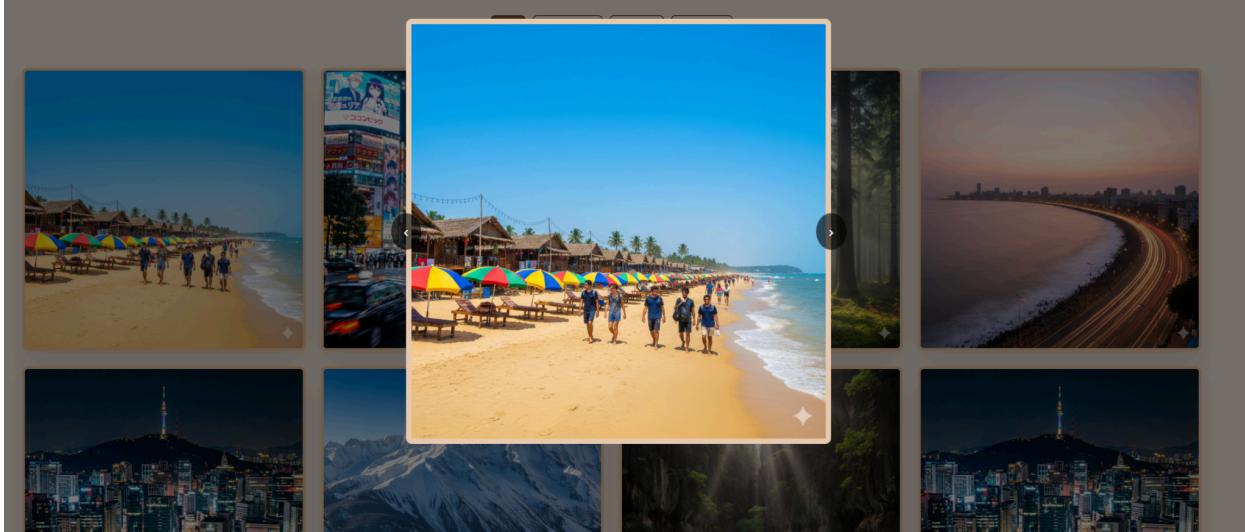

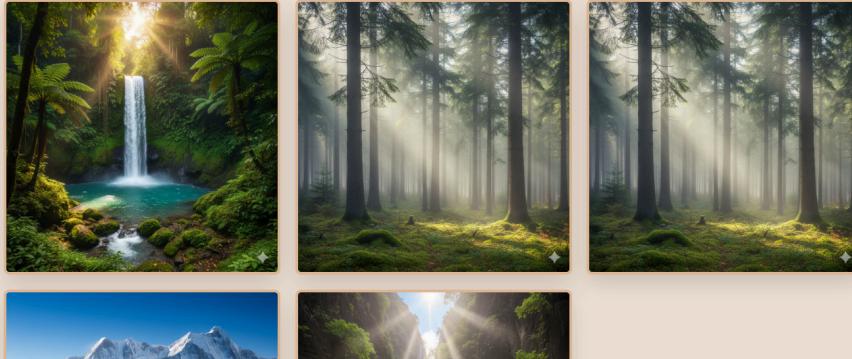

Fig. 20, 21, 22 & 23 Travel Gallery Section

The **Travel Gallery** section displays a collection of images from popular travel destinations, allowing users to visually explore different places. The gallery includes **filter options** such as *All, Beaches, Cities, and Nature*, which enable users to view images based on their selected category. When a filter is applied, the gallery updates dynamically to show relevant images.

Users can click on any image to view it in a **modal view**, where the image is displayed in a larger format. Inside the modal, users can navigate through images using **on-screen left and right arrow controls**, allowing smooth browsing within the gallery without leaving the page.

Reviews Page

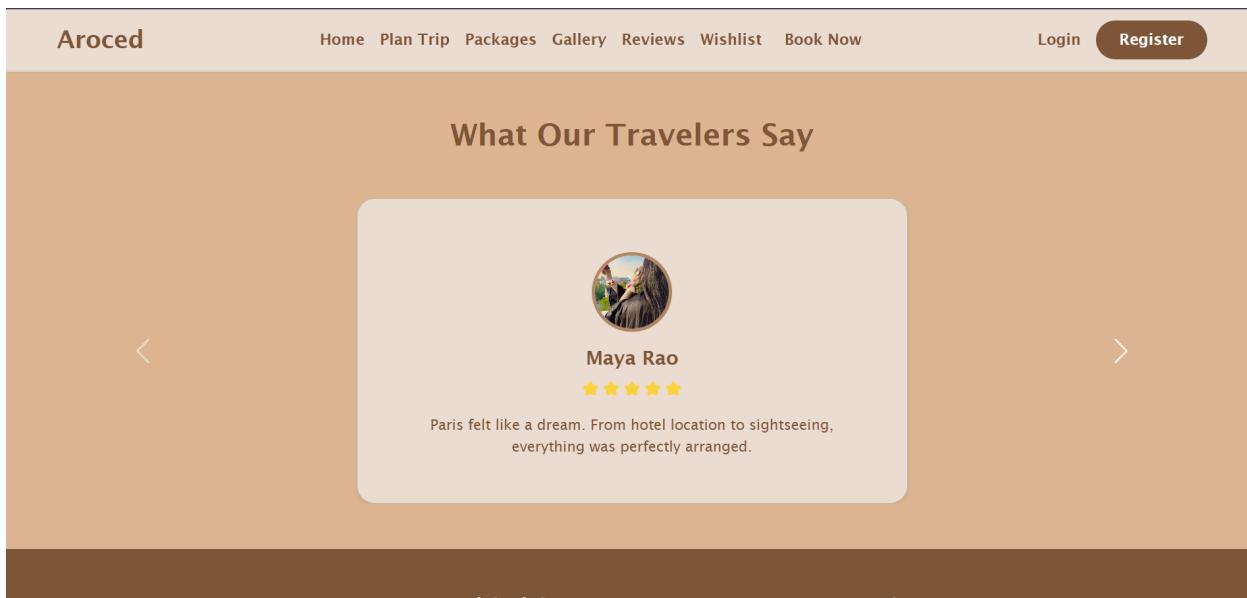

Fig. 24 Reviews Page

The **Reviews Page** displays testimonials from travelers who have used Aroced Travel Agency services. Each review includes the traveler's name, star rating, and feedback about their travel experience.

Reviews are shown in a **carousel format**, allowing users to browse through them using **on-screen left and right arrow controls**. This section helps build trust and gives users an idea of the quality of services before booking a trip.
